

Open HiWi Positions in Molecular Communication (MC)

Synthetic Molecular Communication Across Different Scales (SyMoCADS)

Start date
From Sep. 2024

Duration
To be discussed

Working hours
To be discussed

Contact
sebastian.g.lotter@fau.de

Prerequisites

- Enthusiasm for **interdisciplinary research**, strong **analytical skills**, and a solid background in math.
- Practical **programming experience** (preferably in Python).
- Solid understanding of **basic communication theory** desired.

What we offer

- **High-standard supervision** and world-wide unique research environment
- Diverse tasks: **Mathematical modeling** and **computer simulations**, beyond state-of-the-art **machine learning** methods, ...
- Possibly “spin-offs” such as **research projects** and **theses**
